PROFESSIONAL SUMMARY

Computer Science graduate with a practical focus on data analysis, structured data handling, and business operations. Experienced in working with CRM data, building Excel-based reports, and applying SQL for data retrieval and analysis. Currently advancing this foundation through an MSc in IT with a major in Data Analytics at Islington College (Northumbria University, UK), alongside a professional role in business development at Rudra Origins Pvt. Ltd. Combines technical problem-solving with business-facing communication — translating data into actionable insights that support operational decisions. Certified by Google in Data Analytics.

PROJECTS

Custom Operations & Lead Management System [\[Data / Business Intelligence\]](#)

Designed and built a centralised business operations system using Google Workspace, functioning as a custom CRM, inventory database, and order management platform for Rudra Origins Pvt. Ltd. The system bridged sales, procurement, and fulfilment, replacing fragmented data with a single structured pipeline.

Tools: Google Sheets, Google Workspace, Data Modelling, Pipeline Design, Inventory Tracking

Outcome: Gave management real-time visibility into active orders, stock levels, and pending leads — improving follow-up consistency and reducing fulfilment delays across the team.

Sales Pipeline & KPI Analysis — Vaidya Energy [\[Data Analysis\]](#)

Extracted and structured sales pipeline data from Odoo CRM, cleaned the dataset, and built Excel-based KPI dashboards using pivot tables, VLOOKUP/XLOOKUP, and charts to support monthly business reviews and performance tracking.

Tools: Microsoft Excel, Pivot Tables, VLOOKUP / XLOOKUP, Odoo CRM, Data Cleaning, KPI Reporting

Outcome: Delivered structured monthly sales reports that improved reporting accuracy and enabled data-driven decisions on product performance and lead prioritisation.

Maneuver Driving School Website [\[Web Development · International Client\]](#)

Designed and developed the full website for Maneuver Driving School, a driving education company based in Vancouver, Canada. Managed ongoing social media content and communications for the client.

Tools: HTML, CSS, JavaScript, CMS, Social Media Management, Responsive Design

Outcome: Live business site actively serving student inquiries, with ongoing digital communications managed remotely.

Link: <https://maneuverdrivingschool.ca/>

Kicksy Nepal — E-Commerce Platform [\[Web Development · Founder\]](#)

Founded and built Kicksy Nepal, an e-commerce platform for footwear and leather goods. Handled end-to-end setup including website design, product cataloguing, and brand identity.

Tools: Web Design, E-Commerce, Brand Strategy, Product Management

Outcome: Established a fully functional online retail presence from concept through to launch.

Link: <https://kicksy.com.np/>

Nitya Health App [\[Mobile Development\]](#)

Developed a cross-platform health application using Flutter and Dart. Features included user registration and login, appointment booking, and a user profile system with GetX state management.

Tools: Flutter, Dart, GetX, UI/UX Design, App Architecture

Outcome: Delivered a fully functional health app with clean multi-screen navigation and structured state management.

TECHNICAL SKILLS

Data Tools Microsoft Excel (Pivot Tables, VLOOKUP/XLOOKUP, Charts) · Data Cleaning · Exploratory Data Analysis · KPI Reporting · Google Sheets · Data Visualisation

Database & SQL MySQL · SQL Queries & Joins · Aggregations · Data Retrieval · Relational Databases · DBMS Concepts

Programming Python (basics) · Dart (Flutter) · C / C++ · HTML / CSS / JavaScript · OOP · Git & GitHub

CRM / Business Tools Odoo CRM · Google Workspace · Pipeline Tracking · Inventory Management · Vendor Management · Figma · WordPress / CMS

Soft Skills Analytical Thinking · Attention to Detail · Business Communication · Documentation · Research · Self-directed Learning · Process Improvement

EXPERIENCE

Junior Business Development Manager

Apr 2026 – Present

[Rudra Origins Pvt. Ltd.](#)

Full-time · Hybrid · Kathmandu, Nepal

- Designed and built a centralised operations system in Google Sheets, acting as a custom CRM, inventory tracker, and order management tool — replacing fragmented data processes across sales, procurement, and fulfilment.
- Built and maintained a dynamic lead-tracking pipeline mapping prospects from initial contact to closed orders, improving follow-up consistency and reducing missed opportunities.
- Managed vendor relationships and product catalogues, tracking supplier performance, pricing, and purchase orders in real time to support supply chain decisions.
- Developed an inventory management tracker that monitored stock levels with accuracy, minimising discrepancies and preventing fulfilment delays.
- Coordinated client communications, business proposals, and internal documentation to support growth activities and strategic follow-up.

Freelance Web Designer & Developer

2023 – Present

[Independent — Multiple Clients](#)

Freelance · Remote · Nepal & International

- Designed and developed custom websites end-to-end for multiple clients including commercial businesses, hospitality venues, and professional portfolios.
- Managed an ongoing contract with a Canadian client (Maneuver Driving School) covering website management and social media content planning.
- Delivered portfolio websites for private clients under NDA — covering layout design, responsive build, and content structuring tailored to each client's professional identity.

Social Media Manager

Nov 2025 – May 2026

[Maneuver Driving School](#)

Part-time · Remote · Vancouver, BC, Canada

- Manage social media presence and content calendar for a Canadian driving school, maintaining consistent brand messaging across platforms.
- Create and schedule posts, monitor engagement metrics, and provide periodic performance summaries to the client.
- Website development.

Social Media Manager

Nov 2024 – Mar 2025

[Online Bluebook Junction Pvt. Ltd.](#)

Freelance · Remote · Kathmandu, Nepal

- Managed social media accounts and developed content strategy for a local digital services company on a freelance basis.
- Tracked post performance using basic engagement metrics to guide content planning and reporting.

Product Specialist

Oct 2023 – Aug 2024

[Vaidya Energy Pvt. Ltd.](#)

Full-time · On-site · Kathmandu, Nepal

- Maintained and analysed sales pipeline data in Odoo CRM, tracking leads, customer interactions, and product performance across multiple sales stages.

- Built Excel-based KPI reports using pivot tables, VLOOKUP/XLOOKUP, and charts to support monthly sales reviews and business decisions.
- Identified and corrected data inconsistencies in CRM records, improving overall reporting accuracy for the sales team.
- Monitored product performance trends and provided structured data summaries to support team planning and procurement decisions.

Mobile Application Developer

Nitya Shree Developers Pvt. Ltd.

Feb 2023 – Sep 2023

Full-time · On-site · Kathmandu, Nepal

- Developed cross-platform mobile applications (Nitya Health App, Food Ordering App) using Flutter and Dart in a professional team environment.
- Implemented GetX state management to handle UI logic, data flow, and application state cleanly across multi-screen apps.
- Contributed to UI design decisions, app architecture planning, and code review processes.

EDUCATION

MSc Information Technology — Major: Data Analytics

2025 – Present

Major: Data Analytics

Islington College, Kathmandu · Affiliated with London Metropolitan University, UK

Specialising in data analysis methodologies, applied statistics, database systems, and research-driven problem solving.

BSc Computer Science & Information Technology (CSIT)

2019 – 2024

Nepalaya College · Tribhuvan University, Kathmandu · 78.93%

Core coursework: Data Structures, Algorithms, DBMS, System Analysis & Design, Artificial Intelligence, Operating Systems, Computer Networks.

Higher Secondary — Science (+2)

Completed June 2019

KIST College, Kathmandu · GPA 3.26

Science stream: Mathematics, Physics, Computer Science.

CERTIFICATIONS & TRAINING

Google Data Analytics Professional Certificate · Google via Coursera · 2024 · SQL · Data Cleaning · Spreadsheets · Data Visualisation · R basics · Tableau

Flutter for Beginners · Great Learning Academy

September 2023

Introduction to Flutter Course · Simplilearn
